Consectetuer Adipiscing Elit Sed Diam Nonummy

July 23, 2007

Cibh euismod tincidunt ut laoreet dolore magna aliquam erat volutpat. Ut wisi enim ad minim veniam, quis nostrud exerci tation ullamcorper suscipit lobortis nisl ut aliquip ex ea commodo consequat. Duis autem vel eum iriure dolor in hendrerit in vulputate velit esse molestie consequat, vel illum dolore eu feugiat nulla facilisis at vero eros et accumsan.

- 1 Student Search
- To find a student enter one of any of the fields in the search form. No on particular field is required. After submitting form the user is presented with a search results page to which they would select an individual student.
- 2 Group Reports
- Select an “area of intervention” to view group based reports.
- 3 Intervention News
- Although not a requirement, this could be an area to globally make announcements about the site or and related intervention news.

1 Student Profile

A subset of a student’s profile is displayed to identify student.

From Pentamation (displayed by default in bold):

1. Student ID

2. last name

3. first name

4. middle initial

5. sex

6. birth date

7. ethnicity

8. grade

9. primary street address

10. primary apartment number

11. primary city

12. primary state

13. primary zip code

14. parents last name

15. parents first name

16. secondary street address

17. secondary apartment number

18. secondary city

19. secondary state

20. secondary zip code
21. primary language

22. primary building

23. home telephone number

24. primary work telephone number

25. secondary work telephone number

26. primary email address

27. secondary email address

28. guardian relationship

29. Iowa scores by year and subject

30. COGATS scores by year and subject

31. Grades by year and subject

32. Current Teacher's name

33. Current School

34. Next year's teacher

35. Next year's school

36. Asst. Principal

37. Counselor

2 Edit Profile

If profile data is incorrect, a user can update the data which sends an e-mail to the appropriate person who updates

3 View More...

This expands the “Student Profile” box to reveal all of the student profile information stored in Pentamation.

5 Intervention History

A summary view of all areas of intervention

6 Intervention with No Events

If no events have been created for a particular area of intervention it should be clear to the user that this area is “empty”. In this case it would have “no expandable state” and would be “grayed out”

7 Add a New Event...

For each intervention area you select the :New Event Button for the are you want to capture an event.

- 1 Area of Intervention Selected State (Expanded)  
When a user selects an area of intervention it expands all events related to that area
- 2 Events  
Displays who, when and the type of event entered. To view the details the user would click on the date of the event. The events can be sorted by clicking on the heading in each column.
- 3 Event Paging  
Displaying a page of events at a time for the area selected. The amount of events displayed could be set to any number of events per page. Currently in this view it is set to five events.

Use of AJAX to Enhance User Experience

When paging through students and selecting criteria, AJAX could be use to refresh the data only, and not the entire page. This will minimize “page flashing”, and provide a better overall user experience.
