

Michael Woodruff

Senior User Experience Designer & Front End Developer

michaelwoodruff.com • michael.woodruff@gmail.com • (513) 410-1485

Summary

An application designer who focuses on creating elegant yet usable interactive experiences that engage users, while also communicating a timely effective message. Understands the need to balance the conflicting agendas of the client's business goals, user's expectations, limitations of a chosen technology, and a project's budget constraints. A firm believer that it's not only how the software looks, but also how intuitive it is to use.

Recommendations

"Woody brings a creative flair to every project he works on. His drive to understand user behaviors and to design the best interface for that user group is unparalleled. He routinely impressed me with his creativity and ability to model complex user interfaces."

— **Joe Walter**, *Architect at dunnhumby*

"When I was just getting into Web standards, Woody was my go-to guy for answers. He still is. His extensive knowledge is applied in the sites he designs, which makes him an asset to any client who desires a site incorporating the latest in usability, accessibility, and design principles. He's also very generous in imparting his experience to colleagues. I'd consider Woody to be an asset to any team I was on."

— **Lisa Ruff**, *Content Strategist, Instructional Designer, and E-Learning Developer at Fusion Alliance*

"Woody brought surprising depth and breadth to his position with Haverstick. He had a strong eye for graphic design, paying careful attention to interactivity and behavior as much as raw aesthetics. He also did an excellent job of keeping current and sharing the latest and greatest."

— **Alex Hart**, *CTO at Construction Software Technologies*

"Mike 'gets it' when it comes to standards based web design/development. His deep experience comes across to clients very well. He has excellent communication skills and is willing to go the extra mile. I highly recommend Mike."

— **Steve Daly**, *Digital Director at Thriveplan*

"He is a very fun person to work with and a great contributor to the team. He makes an effort to understand Customer's needs and delivers the product to their satisfaction. He is always up to date on the technical trends/ aspects of User Interface design (and his Apple gadgets). It was a pleasure to work with Woody."

— **Gauri Kodkani**, Senior Software Engineer at iSqFt - ConstructConnect Company

"I was involved with Michael on gathering design requirements and software specifications for a client project. Michael was extremely thorough and relies heavily on his strong client skills to drive discussions to a distinct solution. He was able to create wireframes, site maps, and several design mockups in a timely manner, despite a full workload. His artistry in design achieves that rare balance of both broad appeal and intuitive user interaction. He has extensive familiarity with market trends which enables him to frame prospective client solutions, producing a mutual basis of communication."

— **Clifford Adams**, Business Analyst at GE Aviation

"Michael is a huge contributor and a strong UI designer. He is creative, technical, smart and focused. He knows how to get things done quickly and efficiently, and always goes above and beyond to ensure things are done on-time, on-budget and with the highest quality. I would recommend him highly and would welcome the opportunity to work with him again in the future."

— **Chris Main**, Software Engineering at Cintas IT
